## READING

Do you know what a ship of the desert is? It is a camel. These animals are good for carrying people and supplies across hot, dry deserts. Camels can go many days without getting thirsty. Camels can also go for a long time without food. They live off the fat in their humps when there is no food.

Read and listen to the paragraph. Then answer the questions .

1. Which sentence is most likely true?

- A . Camels eat sand most of the time .
- B . Camels don't like to eat or drink .
- C . The desert has little food or water.

2. You can guess that some trips camels make

- A. take many days .
- B . are in cold places .
- C . are across the sea .

3. After a camel crosses a desert, you can predict that it

- A . isn't very hungry .
- B . drinks a lot of water.
- C . acts like a ship .
