How to colour the stars. 3 stars = you got at least three quarters of the part right. 2 stars = about half. 1 star = you tried, so keep practising and try again next week. Your highest level with 2 or 3 stars is your practice level. This is a guide only, not an official exam result.

What to do next

1. Do the part just above your practice level again in a week.
2. Read or listen to something short in English every day, even for ten minutes.
3. Ask an adult to listen while you read the texts aloud.
